PHOTOGRAPHS OF FACILITIES FOR WASTE MANAGEMENT

1. Solid Waste Disposal

The University has implemented a Solid Waste Management system, ensuring efficient handling of waste generated on campus. Through agreements with vendor, solid waste is collected regularly.

Dustbins are located adjacent to all washrooms at the University.

Colour Coded dustbins installed at strategic places for effective waste segregation and disposal.

Collection of solid waste

2. E-waste disposal

The University has an efficient mechanism to manage and dispose e-waste through an agreement with authorized vendor, Bin Bag Recycling Services Pvt. Ltd, Andhra Pradesh.

E-waste disposal

3. Biomedical waste

The University has signed an MoU with Fresh Air Waste Management Services Pvt Ltd., Guwahati for the treatment of biomedical waste. The waste is segregated in colour coded waste bins and label system.

4. Sewage Treatment Plant

The University has a Sewage Treatment Plant (STP) to effectively treat liquid waste. The recycled water is utilized for various purposes such as gardening, flushing toilets etc.

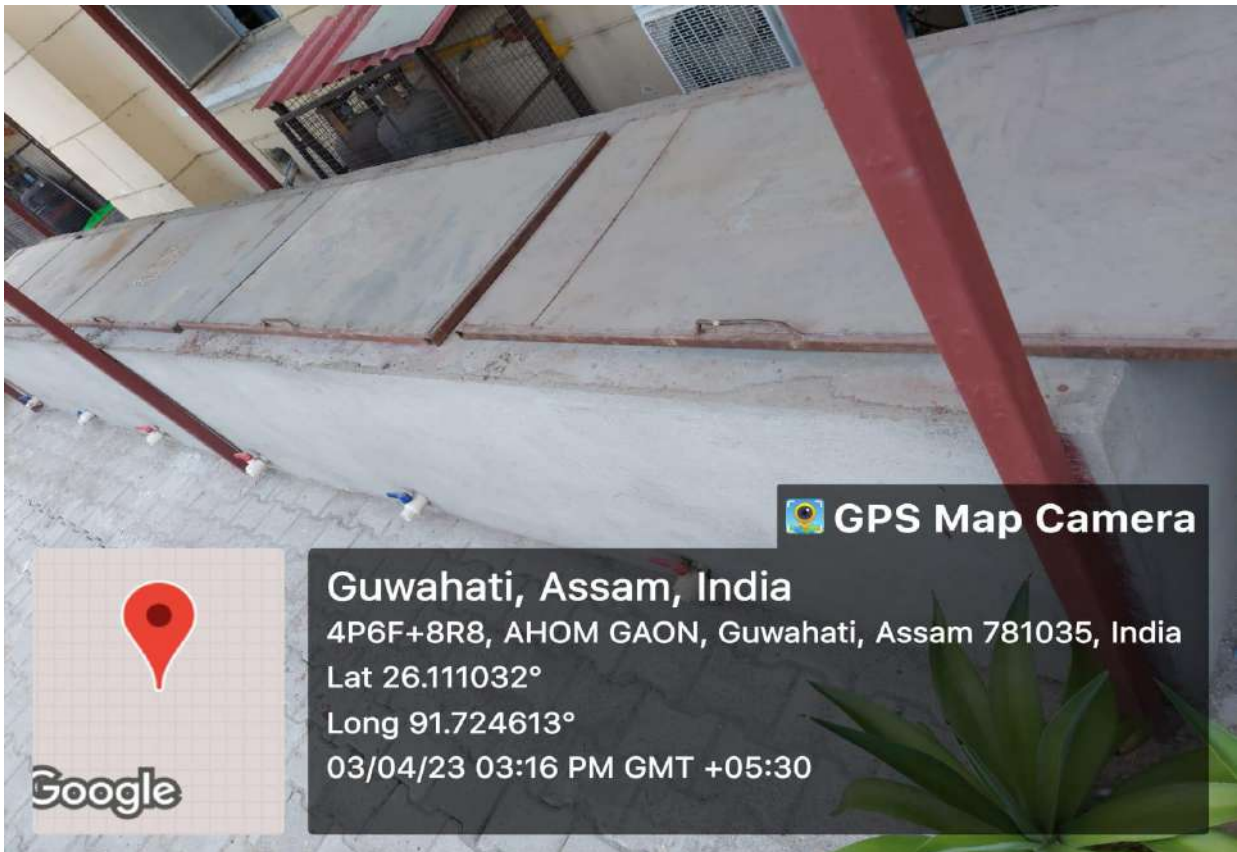

Sewage Treatment Plant is installed behind Amphitheatre

5. Vermicomposting Plant

The University uses vermicomposting for management of biodegradable solid waste which is recycled into manure for plants in the campus.

6. Regular cleaning of garbage collection area

The dumping zone for collection of solid waste near Aditya House (boys hostel) and Block A is regularly cleaned by Housekeeping team for maintenance of cleanliness and hygiene.

7. Restraint on single-use plastic

Single use plastic items such as plastic bottles, bags, spoons, straws and cups are banned completely and awareness is created among students and staff of University.

Say No to Single Use Plastic signage at the entrance of the University

Awareness on Ban on single-use plastic University Notice Boards
