

Prof. (Dr.) Alak Kumar Buragohain

Imperial College of Technology and Medicine, London

Former Founder Head of Department of Molecular Biology & Biotechnology, Tezpur University

Former Vice Chancellor - Dibrugarh University

Current Designation: Chairperson Academics, The Assam Royal Global University

The Assam Royal Global University (RGU), a leading University in the North-East, offers the students a vast range of subjects to enable them to chart their unique career pathways. It is not the wide array of subjects alone, this University extends infinite opportunities to explore the inherent talents and natural aptitudes of the young students. At RGU the students learn their chosen subjects from highly qualified and experienced faculty members drawn from all over the country. While they are enabled to shape their future career progression, instill the values and the virtues to become good citizens, they construct their imaginations for a better life for them and for the world tomorrow. RGU is the place where science and technology, engineering and architecture, design and fine arts, humanities and social sciences, law and forensic science, commerce, and management science blend in unique combinations as the students explore their interests in these multitude of the subjects within a large varied, and flexible framework.

At RGU, the joy of learning and the excitement of exploration of the world through critical and creative thinking converge in reimagining and redefining education.
